Error Log Entry

What error message did you encounter (if any)?

Exception in thread "AWT-EventQueue-0" java.lang.Error: Unresolved compilation problem:
The method getMessage() is undefined for the type ActionEvent

What unexpected behavior did your program exhibit?

Could not save to file instead it gave the error message.

What caused the issue? (e.g., syntax error, logic error, incorrect function usage, etc.)

Syntax error

Include a screenshot of specific lines of code.

```
catch (IOException ex) {  
    JOptionPane.showMessageDialog(this,  
        "Could not be saved to file: " + e.getMessage(),  
        "File Error",  
        JOptionPane.ERROR_MESSAGE);  
}
```

How did you fix the issue?

I used e.getMessage() when it should have been ex.getMessage() so I fixed it by writing ex.
