# Error Log Entry

What error message did you encounter (if any)?
No error message
What unexpected behavior did your program exhibit?
Even when X won it displayed O won
What caused the issue? (e.g., syntax error, logic error, incorrect function usage, etc.)
Logic error
Include a screenshot of specific lines of code.

```
if (line.equals("XXX")) {
    return "Winner is: O";
}

else if (line.equals("OOO")) {
    return "Winner is: O";
}
```

How did you fix the issue?
I changed the text to say the winner is x when x won.

```
//if player has three in a row win it returns the winner
if (line.equals("XXX")) {
    return "Winner is: X";
}

else if (line.equals("OOO")) {
    return "Winner is: O";
}
```
